## PROFESSIONAL SUMMERY

---

I am a highly motivated and passionate Software Engineer with an academic background of Bachelors in Computer Science and Statistics. I have with hands-on experience building web and mobile applications, database management system, and knowledgeable across many OOP languages. I have a proven track record of delivering innovative and highly functional solutions and successfully driving projects from conception to completion. I am seeking a software development role in a forward-thinking tech company where I can leverage my skills and enthusiasm to contribute to impactful projects and further my professional development.
